VOICE CONTROL

REMOTE ACCESS

CONVENIENT SCHEDULING

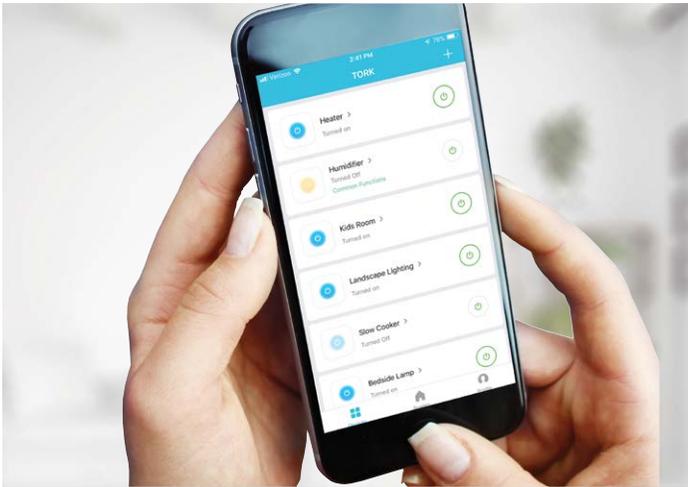

EASY SETUP

MULTIPLE SCENE CONTROL

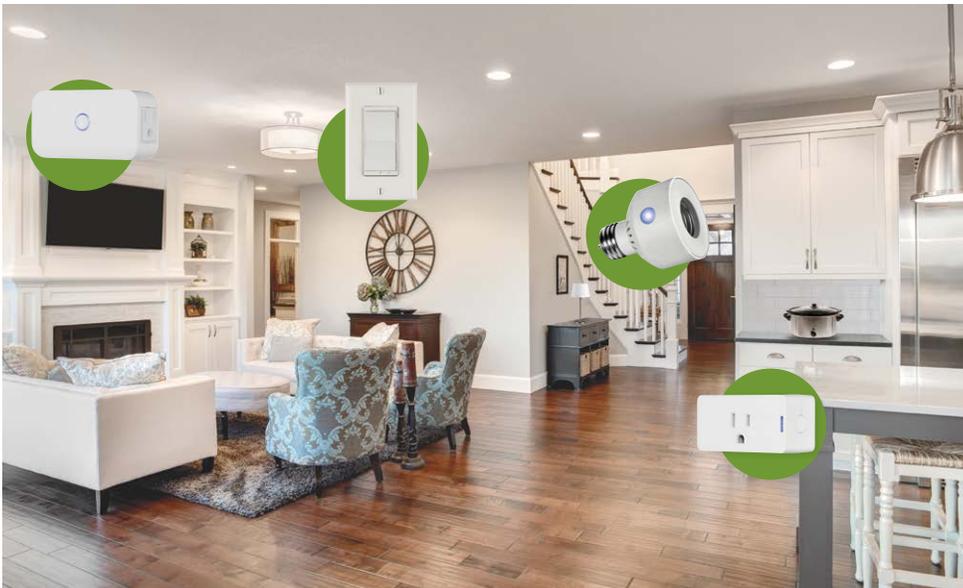

ONE EASY-TO-USE APP

The free TORK app works with all TORK smart devices for easy control of your smart home from any Android or iOS device.

- Plug in smart device.
- Download the TORK app. Open and register.
- Press ADD DEVICE and select device type.
- Confirm rapid blink on device and enter Wi-Fi password.
- Turn device ON/OFF and add program schedules.

YOUR HOME, YOUR VOICE

Control your TORK smart devices with simple commands through Amazon Alexa or Google Assistant.

Turn on kitchen light.

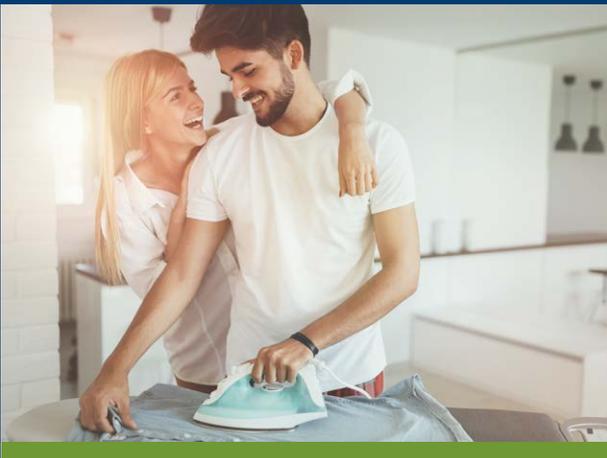

CONTROL YOUR HOME FROM ANYWHERE

All your TORK smart devices can be controlled through your existing Wi-Fi network via the free TORK app. Your internet provider gives you access and control from outside your home.

SAFETY AT HOME EVEN WHEN YOU'RE AWAY

Connecting a light to your smart device can provide home security benefits. Set your TORK app to random mode, and the smart device will automatically turn the light on and off to give the appearance that someone is home.

NO NEED TO REMEMBER TO TURN DEVICES OFF

Your smart device gives you the peace of mind that you'll never leave devices running again. Real-time status updates let you know if a device is on and give you control to turn it off, giving you one less thing to worry about.
